

Software Performance Systems, Inc.

Consulting and Technical Services (CATS)

Maryland Department of Budget and Management

Overview

The Maryland Department of Budget and Management (DBM) has established the CATS Master Contract vehicle to enable the Maryland State government to procure Information Technology (IT) consulting and technical services in a timely and economical manner. Through CATS, Maryland will have a flexible means of obtaining IT resources quickly, efficiently, and cost effectively by issuing Task Orders (TO) specific to its needs. The CATS contract will be extended to the Maryland counties and municipalities as well.

Functional Areas Awarded to SPS

Functional Area 1

Enterprise Service Provider (ESP)

Services to ensure that information systems are designed to capitalize on agency architectures and State IT standards, provide interoperability with other systems and networks, be reliable and maintainable, and make the most cost-effective use of COTS technology and agency-wide and government-wide resources.

Functional Area 2

Web and Internet Systems

A broad range of business solutions and support using the capabilities of the Web and Internet; design, develop, test, implement, and maintain web sites, portals, web applications, and web services and the associated hardware, software, network, and security components that comprise these solutions.

Functional Area 3
